To whom it may concern:

Re: Support for nomination Large Business of the Year – Innov8 Digital Solutions

It is with absolute pleasure that I provide this letter of support to Innov8 Digital Solutions. This is a first class organization and group of individuals who provide quality service. They generously donated their time to help CMHA Kelowna staff understand our digital and technical needs as well as supplying us with valuable equipment that will make our Foundry Kelowna team's life much easier by enhancing our communications and services.

Foundry Kelowna is a new approach to wellness services for young people. It represents community agencies, government, donors, youth and young adults, and families coming together to improve the wellness of young people in Kelowna. This integrated health and social service centre for young people ages 12-24 provides a one-stop-shop for young people to access mental health care, substance use services, primary care, social services and youth and family peer supports.

We believe young people should have a voice in their care and that finding the right support shouldn't be difficult. Foundry Kelowna will provide safe, non-judgmental care, information and resources, and work to reach young people earlier – before health challenges become problematic by bringing health and social services together in a single place to make it easier for young people to find the care, connection and support they need.

The team at Innov8 are professional, caring and understand the importance of building a strong and supportive community for all. Please feel free to contact me if you have any further questions.

Sincerely,

A handwritten signature in black ink that reads "Shelagh Turner". The signature is written in a cursive, flowing style.

Shelagh Turner
Executive Director
